

## Acumen<sup>net</sup> eFX

### Effectively manage your Foreign Exchange Risk

#### The Challenge

In a competitive environment, clients are expecting easy-to-use and advanced tools to effectively manage their Foreign Exchange Risk. This has to be implemented with a solution that boosts productivity, efficiency and agile deployment while being compliant with international security standards.

Currently, the banks have already invested in Digital Banking and Treasury platforms which should be completed by adding Digital Foreign Exchange services with a unique trading experience to their clients.

#### The Innovator

With 32 years of experience in the banking industry, **Login S.A.** made a strategic decision to develop a sophisticated, white-labelled digital solution that operates on-premises or in the cloud. **Acumen<sup>net</sup> eFX** allows banks' agents, branches and digital channels to integrate with Treasury Operations, while allowing their clients to manage their **Foreign Exchange Risk**.

#### The Solution

**Acumen<sup>net</sup> eFX** allows for easy management of multiple exchange rate feeds and availability of best rates to customers according to the agreed pricing policies.

**Acumen<sup>net</sup> eFX** can be integrated with any existing Treasury solution, Digital Banking, Core Banking, CRM etc.
